Form 990, Part III, Line 4d, Other Program Services:

High Performing Health Centers - a collaboration between the Washington

Dental Service Foundation and Delta Dental of Colorado Foundation. The

foundations are collaborating to develop a dashboard of key measures

needed to support a high quality dental program, and then identify

technical assistance support to help community health centers reach

certain benchmarks.

Programs that prevent oral disease, increase education and oral health

awareness, increase access to preventative care, systems collaboration

and other related expenses incurred to execute and monitor grants.

Fluoridation Initiative- Community water fluoridation (CWF) is

essential to good oral health. While toothpaste and mouth rinses

contain fluoride, it's often not quite enough to prevent tooth decay.

CWF provides an extra level of protection for everyone. It is

especially critical for children who lack regular access to preventive

dental care. In these kids, it's the last line of defense against tooth

decay. CWF is fundamental to our mission of eradicating childhood tooth

decay. Without it, the oral health of Coloradans would worsen.

CWF is a national issue but building support for it must happen at the

local level. Dentists and physicians living in many Colorado

communities support CWF, as well as the American Dental Association,

American Medical Association and the American Academy of Pediatrics.

The foundation is currently developing an initiative and supports CWF.
